Summary

I am a frontend developer with two years of experience in building user-friendly web interfaces that drive results.

I have developed expertise in a wide range of front-end/web technologies and frameworks, which include HTML, CSS, JavaScript, and React, to deliver exceptional user experiences.

I thrive in collaborative environments where I can learn from others and continuously challenge myself.

I am constantly learning and eager to gain more experience in the field and explore emerging technologies by collaborating with experienced developers.

Skills

Languages: Javascript, Typescript

Libraries: Reactjs, ReduxToolkit, Zustand, React-Query, Material UI (MUI)

Frameworks: TailwindCss, Bootstrap, Vuejs

CSS preprocessor: SASS

Tools: Git & GitHub, Google Workspace, Chrome

Others: Firebase, Framer-motion, Vite

Soft skills:

- Effective communication
- Analytical mindset adept at identifying and resolving frontend issues efficiently and independently
- Teamwork
- Adaptability

Education

National University of Nigeria (BSc Computer Science)

2018–Present

Licenses & Certifications

[Enterprise Design Thinking Practitioner](#) (IBM)

[React Development](#) (Shecodes)

Experience

Huygensoft Limited

Freelance Frontend developer | Remote, Lagos, Nigeria | Oct 2022 – Jan 2024

Tools: HTML, CSS, Bootstrap, SASS, JavaScript (React), MUI, Styled Components, Git, GitHub, React-Query (Tanstack), APIs, Firebase.

- Work with UI designer to transform high-fidelity Figma designs into responsive and functional user interfaces.
- Built reusable and accessible user interface components with Material UI (MUI) library for maintainability and scalability.
- Integrated Redux Toolkit/Context API for efficient global management of data across the code, ensuring proper separation of concerns within the application.
- Interact with backend APIs from the front end using React-query (Tanstack).
- Engage in weekly demo sessions to iron out issues and present tasks assigned.

Zuri HngX Internship

Internship | Remote, Nigeria | Sept 2023

Tools: HTML, CSS, JavaScript (React), MUI, Git, GitHub, Fetch API, APIs, Vercel.

- Participated and completed tasks given.
- Worked with backend developer to develop a Chrome extension "HelpMeOut".
